About the workshop

This webinar aims to provide insights to aspiring researchers on the importance, scope, and career opportunities in Computer Science, as well as Electronics and Communication (CS-EC) Engineering. It is essential to provide guidance and insight into the diverse opportunities available in this field. Additionally, the session offers networking opportunities with experienced professionals, allowing participants to expand their professional connections and find potential mentors or collaborators. Moreover, it provides advice on academic and career planning, including selecting research topics, pursuing advanced degrees, and navigating the job market. Ultimately, the webinar aims to inspire and motivate participants by showcasing the impact of research in CS-EC and highlighting the potential for meaningful contributions to technology and society.
